

Visibility Strategy Funds 2016-2020

Research for infinity
The next steps in the ranking of science

Spin-off projects
Based on knowledge & facilities

<p>Lifelines Workspaces Medical research Spin-off from the UWP2</p>	<p>Euclid Darkmatter research Spin-off from Target</p>	<p>GCC / Molgenis DNA research Spin-off from Target</p>	<p>Lofar / EOR / DAWN Astronomy research Spin-off from excellent facilities & knowledge</p>	<p>Datacenter housing facilities Housing of the UMCG Groninger internet exchange Research compute facilities</p>
--	---	--	--	---

Workspaces & Research facilities

<p>University Work & Research Spaces Windows UWP2 / RWP Linux LWP</p>	<p>HPC Computing Infrastructure Peregrine Cluster e-science grid computing Target storage platform</p>	<p>Facilities Webhosting Virtual Reality & Visualisation Cloud computing</p>	<p>University critical systems High secure workspace GAI Building automation FB Security systems FB Computer Facilities Lifescience</p>
--	---	---	--

Middleware technologies

<p>Student & Staff Student provisioning (Picobello) Staff provisioning (Peoplesoft)</p>	<p>ID provisioning Virtual learning environment (Nestor) University Workspaces HPC computing infrastructure Google APPS</p>	<p>ID provisioning for international collaboration SURFconext EDUROAM</p>
--	--	--

Critical Core IT

Critical IT Infrastructure for Accelerating Research

Hypervisors / Servers / Private Cloud Openstack Vmware Windows Linux	Research & Office data Archive / Backup Archive Backup Storage Metadata mgmt
Storage Facilities the base for our cloudplatform / university workspaces & HPC Computing	
Datacenter Network for supporting high bandwidth & high quality and secure connections between our datacenters	

talented people
knowledge is the next step for innovation
supporting researchers to make the next innovation steps

Network Connectivity & Innovation

Universities

University Hospitals

Research Institutes

University Networks
